CUSTOM COMPOUNDER HAS AZITHROMYCIN-ORAL SUSPENSION & FILLS PRESCRIPTIONS FOR TONSILLITIS, LARYNGITIS, BRONCHITIS, PNEUMONIA, AND SINUSITIS

SAN FRANCISCO, CA, NOVEMBER 23, 2009: Koshland Pharm, Custom Compounding Pharmacy

Koshland Custom Compound Pharmacy announced today that it has the capacity to fill prescriptions for Azithromycin Oral Suspension, which currently are in very short supply according to the FDA. Patients requiring this antibiotic generally have been diagnosed with severe sore throats, pneumonia and sinusitis.

Azithromycin is an antibiotic (macrolide-type) used to treat a wide variety of bacterial infections. This antibiotic only treats bacterial infections. It will not work for viral infections (e.g., [common cold](#), flu). It is effective against susceptible bacteria causing [otitis media](#) (infection of the middle ear), [tonsillitis](#), [laryngitis](#), [bronchitis](#), [pneumonia](#), and [sinusitis](#). It also is effective against several [sexually transmitted infectious diseases](#) such as nongonococcal urethritis and cervicitis.

Koshland Pharm, Custom Compounding Pharmacy can readily meet the demand for these prescriptions throughout the San Francisco bay area. Please contact your physician today to have your prescriptions filled. The pharmacy is conveniently located at 301 Folsom Street, Suite B, San Francisco, CA 94105. You can reach the pharmacy by calling 415-344-0600 or faxing in your prescription to 415-344-0607, or via the web at www.koshlandpharm.com

-More-

Peter Koshland, President and CEO, of Koshland Pharm: Custom Compounding Pharmacy states "our high-quality Azithromycin Oral Suspension preparations will ensure that patients will be able to continue treatment without any noticeable lapses in their current therapy."

Koshland Pharmacy is fully equipped and readily available to meet patients' needs during manufacturer backorders. Filling this void is just one of the reasons why compounding pharmacies are a vital component of the healthcare system.

ABOUT KOSHLAND CUSTOM COMPOUND PHARMACY

Koshland Pharm is a custom compounding pharmacy specializing in hormone replacement therapy. We provide compounded medications of the highest quality with unsurpassed expertise, top-of-the-line equipment, and numerous quality control measures. By engaging in an ongoing dialogue with our patients and providing education forums on health-related topics, Koshland Pharm empowers people to take charge of their health, improve their quality of life on health-related topics, and prevent disease.

What is Compounding?

Compounding is the process of creating "custom" prescriptions. Some conditions are best treated with medications that are not available in standard commercial formulations. With a compound prescription, you get the most effective treatment, delivered in the most appropriate and convenient dosage form.

Peter Koshland, PharmD, founder of Koshland Pharm, is an expert in the field of compounding pharmacy and hormone replacement therapy. Koshland is also an adjunct professor of clinical pharmacy at UCSF. You can reach him through his blog, The Compounder's Forum at <http://thecompounder.wordpress.com/>.
