

KÈRAPHINE™ BODY SMOOTHING LOTION

KèraPhine Body Smoothing Lotion provides advanced, targeted therapy for rough, bumpy skin

Key ingredients make the difference:

15% glycolic acid[§]

5% ammonium lactate

KèraPhine Body Smoothing Lotion is clinically proven to^{1,*}:

- Exfoliate and remove dead skin cells from the surface of the skin
- Help smooth rough and bumpy skin
- Reduce dryness on the arms[†]

[†]No statistically significant reduction in dryness was seen on the thighs.

^{*}Study results for a 4-week evaluation of the effectiveness of KèraPhine Body Smoothing Lotion; N=81.

Do not use on damaged skin and avoid contact with the eyes. Discontinue use if rash occurs.

[§]**Sunburn Alert:** This product contains an alpha hydroxy acid (AHA) that may increase skin's sensitivity to the sun and particularly the possibility of sunburn. Patients should use a sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterwards.
