

Personal medicine. Uncompromising standards.

QUALITY ASSURANCE AT KOSHLAND PHARM - ABOVE AND BEYOND INDUSTRY STANDARDS

Licensing and accreditation requirements are just a starting place for quality assurance at Koshland. Most of our QA protocols **exceed** requirements to ensure the highest quality compounded medicine possible.

QA STEPS AT KOSHLAND PHARM

- 1. Source only from FDA registered suppliers who can trace every ingredient and prioritize rigor of ingredient testing when choosing supplier**
2. Inspect every active ingredient and its certificate of analysis upon arrival at the pharmacy
3. Barcode every ingredient prior to placing in inventory
4. Check barcodes to match ingredients to formula prior to use in prescription
5. Weigh each ingredient with balances integrated with computer to confirm accurate weight
6. Perform weight check on all finished capsules to ensure correct specifications
7. Create photographic record of every ingredient used in every prescription
8. Perform 8-point quality check by pharmacist and two technicians prior to releasing prescription
- 9. Send more than 10% of our average daily volume per month to outside labs to ensure accurate potency of finished products**

Koshland Pharm is:

- Licensed by the California Board of Pharmacy as a sterile and non-sterile compounding pharmacy
- Accredited by PCAB - the Pharmacy Compounding Accreditation Board - the most rigorous certification available in our industry
